

Information for use - Seating furniture

The chair is tested for normal use by persons up to 110 kg.

For cleaning of wood, plastic or metal parts it is recommended to use a soft cloth, slightly dampened with lukewarm water or water with some washing-up liquid or soap. You should absolutely not use stronger detergents. Instructions/advice on textiles can vary and are specified on our website.

Any repairs to the furniture are to be performed by qualified personnel. Changes in the product may cause deterioration of properties.

Please be careful when using chairs with castors. We do not recommend using them on hard floors.

Please take care not to exceed the maximum recommended quantity when stacking these chairs.
