
EFG Hold

ADAPTED TO MODERN STORAGE NEEDS

EFG Hold, a storage family with clean design and a wide variety of materials and finishes. Even in a flexible and digital office environment there is still a need for both functional and shared storage. Either placed near our own workstation, or in clustered units in the office landscape.

SPACE EFFICIENT SOLUTIONS

Sliding door storage units are perfect where space is limited or where doors left open could be an obstacle. The range includes traditional floor-standing cupboards as well as wall-hung, and with the possibility to add open book cases on top of the units. The doors can be equipped with key-, code- or RFID-locks. Plinths, legs and wheel-bases in different heights are available in a number of colours.

Selection of units:

S12S3K + SPL1200

S80S2K + SMH800

S16S3HK+ SPL1600

1200 and 1600 units units can fit one or several drawer sets which can be equipped with key- code- or RFID lock in the top drawer (SDS2).

EFG Hold's thin edge band provides a clean and distinct look.

NEAR-WORKSTATION STORAGE, CAN BE ADJUSTED TO FACE LEFT OR RIGHT

Towers in two heights and two depths for easy access next to the workstation. The single units have access from one side and can be switched from facing right to facing left. The shared unit has access from both sides with individual space on each side. All towers can be equipped with key-locks, code-locks or RFID-locks. All Tower versions and sizes can fit a drawer set which can be equipped with individual key-, code- or RFID-lock in the top drawer.

Selection of units:

S90T3RC

S80T3LK

S80T1RK

The single units can be supplied with metal top shelf for pencils and smaller items (S80TMI1/ S80TMI).

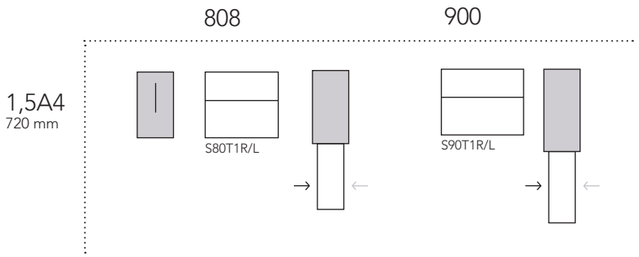

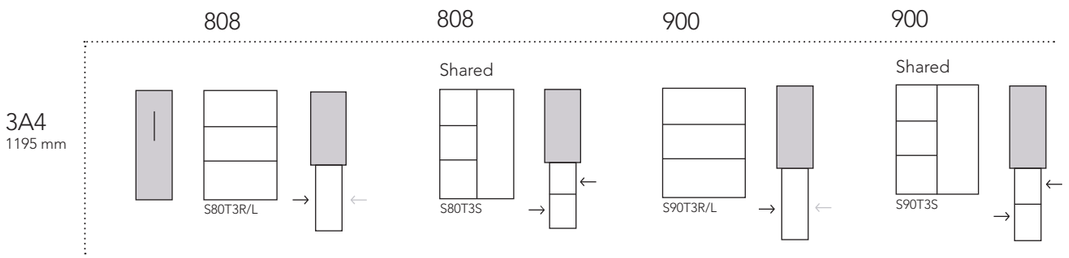

The shared towers with access to half a unit from each side, are divided by a thin metal wall. Drawer unit can be fitted on each side.

ASSORTMENT MODULES
